

ARJUNGOWTHAM

Frontend Developer | Software Engineer

Bengaluru, India • arjungowtham@gmail.com • +91 90000 00000 • linkedin.com/in/arjun-sharma-demo • github.com/arjun-sharma-demo

PROFESSIONAL SUMMARY

Frontend Developer and Software Engineer with 3+ years of experience building responsive, scalable, and user-focused web applications. Strong in React.js, JavaScript, TypeScript, HTML5, CSS3, REST APIs, authentication, performance optimization, PostgreSQL, Git, CI/CD, Agile development, and testing.

TECHNICAL SKILLS

Frontend	React.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design
Backend	Node.js, Express.js, REST APIs, Spring Boot
Languages	JavaScript, TypeScript, Java, Python
Databases	PostgreSQL, MySQL, MongoDB, Supabase
Tools	Git, GitHub, Docker, Postman, npm, VS Code, CI/CD
Testing	Jest, React Testing Library, Unit Testing, API Testing
Practices	Agile, Scrum, SDLC, Code Review, Debugging, Performance Optimization

PROFESSIONAL EXPERIENCE

Frontend Developer — TechNova Solutions, Bengaluru, India

Jun 2023 – Present

- Developed responsive web applications using React.js, TypeScript, HTML5, CSS3, and modern frontend technologies.
- Built reusable React components and modular application architecture.
- Integrated REST APIs for authentication, user management, job listings, and application workflows.
- Implemented responsive interfaces for desktop, tablet, and mobile devices.
- Optimized frontend performance through code splitting, lazy loading, component optimization, and efficient API communication.
- Implemented validation, error handling, loading states, and user feedback mechanisms.
- Collaborated with backend developers to integrate RESTful services and PostgreSQL data.
- Used Git and GitHub for version control, pull requests, and code reviews.

Software Developer — CodeCraft Technologies, Hyderabad, India

Jul 2021 – May 2023

- Developed full-stack web application features using React.js, Java, Spring Boot, REST APIs, and PostgreSQL.
- Created reusable frontend components and responsive UI layouts.
- Developed RESTful APIs for authentication, CRUD operations, and application data management.
- Designed and optimized PostgreSQL queries for data retrieval and reporting.
- Implemented JWT-based authentication and role-based authorization.
- Performed debugging, unit testing, API testing, and performance optimization.

PROJECTS

SwipeX - AI-Powered Job Matching Platform

Technologies: React.js, Java, Spring Boot, REST API, PostgreSQL, Supabase, JavaScript, HTML5, CSS3

- Developed a job discovery and recruitment platform connecting job seekers and recruiters.
- Implemented separate workflows and dashboards for job seekers and recruiters.
- Built job search, filtering, job details, saved jobs, applications, and swipe-based job discovery.
- Developed recruiter job posting and application management functionality.
- Implemented resume upload and skill extraction functionality.
- Developed personalized recommendations using resume skills, experience, preferences, swipe activity, saved jobs, and application history.
- Implemented application tracking with Applied, Under Review, Shortlisted, Interview, Hired, and Rejected statuses.
- Integrated PostgreSQL/Supabase for persistent storage of users, jobs, resumes, applications, notifications, and activity data.

E-Commerce Web Application

- Developed responsive product browsing and search interfaces.
- Implemented product filtering, shopping cart, authentication, and order management.
- Integrated REST APIs and designed reusable React components.

EDUCATION

CERTIFICATIONS

JavaScript and React.js Development • Spring Boot and REST API Development • PostgreSQL Database Development • Git and GitHub Version Control
